Md. Abir Islam Mishad

mish5387@vandals.uidaho.edu | (+1) 208-997-7727 | Moscow- 83843, ID

EDUCATION

Bachelor of Science in Computer Engineering Expected December 2028

University of Idaho, Moscow, ID

SKILLS

- Machine Learning
- Computer Vision
- PCB Designing
- Circuit Simulation
- Programing Micro-chip
- Embedded system design
- IoT system design
- 3d model designing
- MATLAB & R Studio
- LaTeX
- HTML , CSS
- C , C++ , Python

ENGINEERING EXPERIENCE

Integrated Strawberry Detection and Harvesting System project

July 2024

- Collaborated with a multidisciplinary team to develop system solutions
- Calibrated sensors for the system
- Designed and implemented circuitry for full system integration
- Acquired and annotated tree samples and imagery for machine learning dataset

Radio-Based Communication System for Oceanic Hazard Detection and Navigation

October 2023

- Built a mesh network using multiple NRF modules for robust communication
- Calibrated gyroscopic sensors to adapt to water level and tidal variations
- Designed and developed custom circuitry and hardware for full system integration

ACHIEVEMENT

- **DeVlieg Scholar**, College of Engineering Professional Skills Academy *Fall 2025*
- First Runner up in **ASABE Robotics Student Design Competition** 2024
- Champion at **BCSIR Science and Industrial Technology Fair** 2023 [BD]
- First Runner up in 40th **National Science & Technology Competition** 2019 [BD]
- Champion at **National Biology Olympiad** 2019 [BD]
- Second Runner up in **National Debate Competition** 2019 [BD]
- Champion at **BCSIR Science and Industrial Technology Fair** 2019 [BD]
- Second Runner up in 39th National **Science & Technology Competition** 2018 [BD]
- Divisional Champion at **Creative Talent Hunt** 2018 [BD]

ADDITIONAL EXPERIENCE & INVOLVEMENT

SI-PASS Leader, Academic Support Programs

University of Idaho, Moscow

March 2025 – present

- Lead 3+ weekly peer-assisted study sessions to boost student performance in high-impact courses.
- Create targeted plans to enhance academic performance
- Collaborate with faculty to integrate academic support into curriculum delivery.

Former Vice President, Research Lab Bangladesh

Chattogram, Bangladesh

August 2021 – July 2023

- Coordinating monthly projects on robotics
- Collaborating with other clubs and spread activities
- Providing training and Mentorship to the members
- Effectively communicate with other staff on improving activities
